

#	Entity	Question	Solution
1	Endorsement - Promo Code	How do we calculate promo code Endorsements?	Is calculated the same way. Whatever is endorsed has same calculation as the main policy
2	Endorsement - Period Extension	After discount and discounted values missing will be added	After discount and discounted values missing will be added
3	Endorsement - Suggestion for Premium Calculation	Minus (- Sign) alignment in an order	Can be done
4	Endorsement - Suggestion Period Extension	Policy should have same ending day for all vehicles incase of fleet	Can be done
5	Endorsement - Policy Inception Date and Endorsement Expiry Date	Incase of second time period extension	Previous Extension Inception Date. Days as well to be accounted incase of second time period extension date
6	Endorsement Fee	Policy does not have endorsement Fee ?	Scrap the policy fee. Ignore policy fee instead calculate Endorsement Fee
7	Endorsement - Towing	Client can say we do not want towing during endorsement (400 for any number of days).	A tick box to select or deselect towing.
8	Period Extension - Towing	Towing to be added per vehicle	Suggestion - Existing fields to be taken and disable all fields. Except those to be changed (Ex - promo code cannot be changed, loading cannot be changed) only thing that can be add is towing. Endorsement fee can be added in Premium Summary screen. Endorsement fee can be added here instead of policy fee. Towing fee will be adjusted in vehicle screen
9	Endorsement Cancellation	If we have two vehicles and we cancel one what happens, the value of that vehicle should not be accounted for future calculations ?	Vehicle can be viewed when its cancelled. Value should be taken into account so if it was for 6 months and 3 months has been used. So 3 months value will be accounted for. Everything remains the same but a screen to be added. A cancelled screen (How much has been retained and how much has been refunded)
10	Endorsement Reinstament	Calculation is different for every scenario	Endorsement Vehicle - Endorsement fee can be changed Ex : Fleet policy for 10 vehicles, it can be increased to 500, min value will be 0 max 1000 (However do not include a max limit) Permission required (to be included with role management module)
11	Endorsements Flows - All except main endorsement	Suggestion	First premium to be displayed on the premium screen and post calculations premium screen after endorsement. This can be done except for main policy
12	Endorsments - Laid Up	Customer has two vehicles wants to lay up one vehicle?	Comprehensive for example : Vehcile not on road but insurance covered, but Premium is covered for flooding, fire or riot. Passengers wont be covered. Laid up - Premium screen disabled. Another screen for retain and refund. Everthing will be same flood fire riot 1000 kept as it is. reselecting of these options should be prohibited for the underwriter. Group select for these 3 to be done.
13	Endorsements - Laid Up	Refund and Retain - Select and Deselect options	Additional risks and additional covers can be selected everything else is disabled. Ex: Cyclone riot flooding was not in original policy now during laid up he can add damage by rodents After reinstatement - adjustment for reversal for example (in the extra screen suggested) Whenever there is reinstatement add a field reinstatement adjustment below
14	Endorsements - DTC	DTC cannot be reinstated but can be cancelled	Same screen of DTC , we can cancel it and it will give the refund. If its not active DTC has not started. Client wants to change the DTC date, should be allowed to change the date as its just 1 day.
